

Seamless Industrial Epoxy Floor Coating Paint 1mm Solvent Based Solid Colors

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-4001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 20 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

CREKOAT

Product Specification

- Features: Seamless And Smooth Floor
- Name: Industrial Epoxy Floor Coating
- Materials: Epoxy Floor Paint
- State: Liquid Coating
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Seamless Industrial Epoxy Floor Coating, Industrial Epoxy Floor Coating 1mm, Industrial Epoxy Paint Solvent Based

Product Description

Solvent Based Solid Colors Industrial Epoxy Floor Coating

Product Descriptions:

Product Name	Concrete Floor Paint
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.25kg/sqm per coat

Quick Details:

Epoxy floor coatings are specialized, two-part mixture that consists of resin and a hardener to form a hard plastic coating. As it is mixed, it forms a chemical reaction that gives your floor distinct qualities. One of the most important qualities that this chemical reaction produces is new stability and endurance in the surface. This coating seals and cures the surface it is applied to, forming a firm bond. It is generally applied over concrete, wood, VCT, tile, or many other common industrial and commercial floors.

Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. Cost effectiveness
5. Fast application
6. Suitable for heavy use and mechanical loads

Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution.

Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
