

Wood Clear Casting Epoxy Resin Heat Resistance UV Resistant Resin Low Exotherm

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

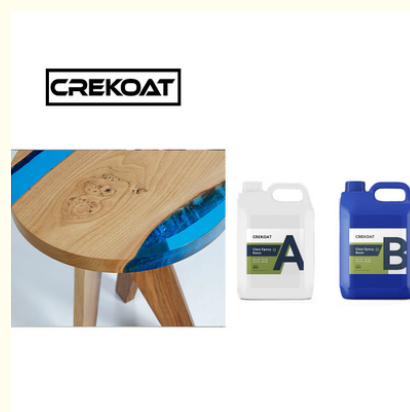

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: DPC-3001
- Minimum Order Quantity: 500KG
- Packaging Details: 100g/250g/300g/500g/750g/1kg, 2kg/3kg/5kg/10kg/15kg/20kg/200kg per bottle
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

Product Specification

- Features: No VOC Low Odor
- Name: Deep Pour Epoxy Resin
- Materials: Epoxy Resin For Wood
- State: Liquid Coating
- Pot Life: 60 Minutes
- Shelf Life: 12 Months
- Thickness: 5cm~10cm
- Application: Brush, Roller, Stick
- Highlight: Wood Clear Casting Epoxy Resin, Clear Casting Epoxy Resin Heat Resistance, UV Resistant Resin Low Exotherm

Product Description

High Gloss UV Resistant Clear Casting Deep Pour Epoxy Resin For Wood

Product Descriptions:

Product Name	Casting Epoxy Resin
Drying time (25°C)	Touch dry≤8 hours / Hard dry≤48 hours
Viscosity (25°C), cps	Part A 3000-3500, Part B 300
Solid Content, %	100
Hardness, shore D	≥90
Coverage (15kgs Kit)	1"Thick(2.54cm) 6.0 sq.ft

Quick Details:

Deep Pour Epoxy is a 2-part, extremely clear, deep-cast epoxy. It is ideal for applications where you want a glass-like finish, or thicker pours - you can put this resin up to 50mm (2 inches) deep. This 3:1 mix ratio product was formulated to reduce exotherm (heat build-up) during deep pours, allowing users to pour thicker sections without slowing you down, no need to pour in layers. It is perfect for river tables, resin blanks for lathe turning, filling wide gaps in wood, or any application requiring a depth greater than 9.5mm (3/8 inch). Deep Pour Epoxy can also be layered for projects requiring thicknesses beyond 50mm (2 inches).

Features:

1. Odor-free and nontoxic
2. Low Viscosity
3. U.V. Resistant & Non-Yellowing
4. Self-leveling formula
5. High-Gloss
6. Heat and Impact Resistance

Advantages:

The Deep Pour Epoxy lends itself perfectly to river tables and projects that require a depth of pour up to 50mm in one go. Adding pigments can create stunning creative looks and elevate your project to a stunning work of art. Optically clear with good UV resistance and very low exotherm. Pour up to 50mm in depth in one pour. Use multiple pours to build up higher depth. Due to the low exotherm you are able to pour up to 50mm with confidence. This low viscosity epoxy resin mixture leaves no hole, crack or opening unattended. The slow curing epoxy emits little to no heat and hardens to a durable and solid finish.
