

Distilleries Anti Slip Floor Coating Scratch Resistant Non Slip Floor Paint TDS

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: ASJP-4001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 20 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

Product Specification

- Features: Scratch Resistant
- Name: Anti Slip Floor Coating
- State: Liquid Coating
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Distilleries Anti Slip Floor Coating, Anti Slip Floor Coating Scratch Resistant, Non Slip Floor Paint TDS

Product Description

Safety Coat Anti Slip Floor Paint Epoxy Coating For Concrete

Product Descriptions:

Product Name	Non Slip Floor Paint
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.25kg/sqm per coat

Quick Details:

Anti-Slip Floor Paint is a heavy duty, epoxy floor coating designed as a safe flooring option for areas subject to high foot traffic such as stadiums, factories, warehouses and public event spaces. Nice appearance, dust & corrosion resistant and easy to clean. The whole coating system can bond well with the solid base and has good abrasion and wearing resistance. Meanwhile, it is resistant to compression and impact and can stand heavy-duty load to a certain extent. High durability and great slip resistance make this the perfect floor paint for industrial or commercial use.

Features:

1. Textured gloss coloured finish
2. Resistant to stains and water
3. Durability
4. Cost effectiveness
5. Fast Application
6. Suitable for heavy use and mechanical loads

Advantages:

Many companies chose epoxy flooring for its ease and strength. Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are just some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
