Quick Details:

Acrylic coatings come in two ways: water-based and solvent-based. They enhance and protect the color and the interior and exterior of your flooring surface. As well, it is a fast-drying, low-cost solution meant to solve your concrete flooring needs. What makes excellent acrylic coating is some acrylic polymer emulsions, defoamers, and silicon oils. Besides, this product is water-resistant, which means that you won't suffer from mold, mildew, or other humidity issues in your house. Also, the synthetic resin helps to make your floors or surfaces look like they have a glass cover. In addition, it is easy to clean, and it is nonflammable.

Features:

1. Textured gloss coloured finish
2. Resistant to stains and water
3. Durability
4. Cost effectiveness
5. Fast Application
6. Suitable for heavy use and mechanical loads

Advantages:

Our Acrylic floor paint is an easy to apply and fast drying with low odour for foot and light truck traffic. Suitable for internal and external applications such as bricks, window ledges and walls. It can be used on tarmac as well as concrete, asphalt, wood, walls and bricks. This low odour floor paint offers a quick drying and durable coating of high quality paint. It is slip resistant, which makes it ideal for almost any different environment. Having an anti slip surface, this helps towards the prevention of injuries to employees and general domestic users.
