

Seamless High Build Industrial Epoxy Floor Coating Liquid For Traffic Areas

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-4001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 20 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

CREKOAT

Product Specification

- Features: Glossy Aesthetic Finish
- Materials: Industrial Floor Paint
- State: Liquid Coating
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: High Build Industrial Epoxy Floor Coating, Industrial Epoxy Floor Coating Liquid, Seamless High Build Epoxy Floor Coating

Product Description

Seamless High Build Industrial Epoxy Floor Coating For Traffic Areas

Product Descriptions:

Product Name	Concrete Floor Coatings
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.25kg/sqm per coat

Quick Details:

Offering a two-component, high-solids epoxy resin, our product presents a solid color, silicone-free, and low-viscosity solution, creating a self-priming, glossy finish. With an expansive color range available, it stands as a seamless, high-build coating specifically designed for light to medium duty traffic areas.

This versatile epoxy coating showcases commendable mechanical and chemical resistance, ensuring reliability in diverse environments. Its final surface appearances are varied, offering an extensive selection of colors and an integral cove base. Moreover, it functions as a vital resin component, serving as a primer, binder, and topcoat for high-performance flooring systems, showcasing its multifunctional capabilities and adaptability across various flooring applications.

Features:

1. Seamless, easily cleanable surface
2. Chemical and abrasion resistant
3. Durability
4. Cost effectiveness
5. Fast application
6. Suitable for heavy use and mechanical loads

Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution.

Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
