

Liquid Gloss High Build Epoxy Floor Paint With Two Component Rapid Curing TDS

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-4001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 20 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

CREKOAT

Product Specification

- Features: Long Term Durability
- Materials: Epoxy Paint For Concrete
- State: Liquid Coating
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Gloss High Build Epoxy Floor Paint, High Build Epoxy Floor Paint Curing, Gloss Epoxy Floor Paint TDS

Product Description

Two Component Rapid Curing Epoxy Floor Paint High Build Coatings

Product Descriptions:

Product Name	Industrial Floor Paint
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.25kg/sqm per coat

Quick Details:

It is a two-pack solvent free high-build epoxy resin system for application as a heavy duty floor coating for concrete, steel and other substrates, will provide a chemical and abrasion resistant smooth gloss coloured finish to which anti-slip aggregate can be added if required. Applied by roller and paint brush the product is low odour producing a seamless, hard wearing, hygienic floor finish.

Our floor coating systems range from thin-film to trowel-applied, and can protect against chemical spills, thermal shock, abrasion and impact, and other hazards. We have systems specially designed for kitchens, aviation facilities, and decorative systems with flake and quartz aggregates.

Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. Impact resistant
5. Fast application
6. Suitable for heavy use and mechanical loads

Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution.

Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
