

## 3mm Chemical Resistant Industrial Epoxy Floor Coating Waterproofing

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-5001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 25 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

### Product Specification

- Features: Durable
- Name: Industrial Epoxy Floor
- Materials: 2 Part Epoxy Coating
- Mixing Ratio: 5:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Chemical Resistant Industrial Epoxy Floor Coating  
, Industrial Epoxy Floor Coating Waterproofing,  
3mm Chemical Resistant Epoxy Floor Coating

## Product Description

### Chemical Resistant Self Leveling Epoxy Industrial Floor Paint

#### Product Descriptions:

Product Name	Self Leveling Epoxy Floor Paint
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.5kg/sqm per coat

#### Quick Details:

Self leveling epoxy is primarily used as a high wear, heavy-duty protective coating. It has excellent chemical and abrasion resistance. The high solid formula makes this product useful for many different applications including coating, skid proofing, waterproofing, patching of concrete or masonry, or as an adhesive. The epoxy coating will fill and level cracked, pitted, or some types of spalled surfaces. The cured coating forms a smooth chemically resistant impervious surface that is easily cleaned.

#### Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. High build
5. Fast application
6. Suitable for heavy use and mechanical loads

#### Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution.

Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
