

Spray Heavy Duty Industrial Epoxy Floor Coating High Gloss Low Odor

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-5001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 25 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

CREKOAT

Product Specification

- Features: High Gloss
- Name: Industrial Epoxy Floor Coating
- State: Liquid Coating
- Mixing Ratio: 5:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Heavy Duty Industrial Epoxy Floor Coating, Industrial Epoxy Floor Coating High Gloss, Heavy Duty Epoxy Floor Coating

Product Description

Low Odor High Gloss Heavy-Duty Industrial Epoxy Floor Coating

Product Descriptions:

Product Name	Self Leveling Epoxy Floor
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.5kg/sqm per coat

Quick Details:

Self leveling epoxy is a type of epoxy floor coating that can be applied over concrete floors to create a durable, low maintenance flooring surface. Specifically, self leveling epoxy flooring can be applied over old cracked and damaged concrete floors to create a smooth, seamless surface. This is because during application the epoxy spreads out to fill cracks or chips in concrete floors. Self leveling epoxy flooring can be used in a number of applications including commercial, industrial, and residential applications.

Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. High build
5. Impact resistance
6. Suitable for heavy use and mechanical loads

Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are just some of the industries for which epoxy flooring is the perfect solution.

Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
