

## Eco Friendly Solvent Free Self Leveling Epoxy Floor Paint Solid Colors

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-5001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 25 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

### Product Specification

- Features: Wear Resistance
- Materials: Factory Epoxy Floor Paint
- State: Liquid Coating
- Mixing Ratio: 5:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Solvent Free Self Leveling Epoxy Floor Paint, Self Leveling Epoxy Floor Paint Eco Friendly, Solvent Free Epoxy Floor Paint

## Product Description

### Eco Friendly Solvent Free Self Leveling Epoxy Floor Paint Solid Colors

#### Product Descriptions:

Product Name	High Gloss Epoxy Floor Coating
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.5kg/sqm per coat

#### Quick Details:

Our virtually solvent-free Self-Leveling Epoxy presents a sophisticated two-component flooring system, featuring a convenient 5:1 mixing ratio. Specifically formulated for horizontal surfaces like concrete or asphalt-concrete, it offers essential flexibility where needed most. This versatile coating provides exceptional defense against abrasion and impact, allowing application of up to 2mm thickness in just one coat. Renowned for its outstanding flexibility, wear and impact resistance, it ensures enduring protection against daily use and potential damage. Additionally, this high-build coating showcases superior chemical and wear resistance, enhancing its durability against chemical exposure and daily wear, making it an ideal solution for environments requiring both resilience and adaptability.

#### Features:

1. Designed for horizontal surfaces like concrete, asphalt-concrete
2. Provides exceptional protection against abrasion and impact
3. Perfect for areas requiring resilience against frequent use
4. Recognized for its remarkable flexibility, wear and impact resistance
5. Added durability against chemicals and daily wear
6. Suitable for heavy use and mechanical loads

#### Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
