

Seamless Gloss Industrial Epoxy Floor Coating Roller Applied High Impact

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-4001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 20 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

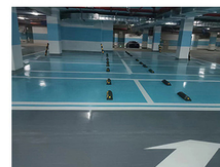

CREKOAT

Product Specification

- Features: Excellent Adhesion
- Materials: Epoxy Coating For Concrete
- State: Liquid Coating
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Gloss Industrial Epoxy Floor Coating, Industrial Epoxy Floor Coating Roller, Gloss Epoxy Floor Coating

Product Description

Roller Applied Seamless Industrial Epoxy Floor Coating Gloss Finish

Product Descriptions:

Product Name	Industrial Epoxy Floor Paint
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.2kg/sqm per coat

Quick Details:

Virtually every facility has at least one area where the floors put up with heavy loads, high impact or extreme abrasion. Without the proper industrial concrete floor systems, your concrete slab surface is liable to crack, buckle or deteriorate under these conditions, developing divots and fractures that necessitate more costly repairs down the line. By installing one of our heavy duty epoxy flooring and coatings, you give your traffic surface the strength it needs to stand up to extreme pressure and heavy use. These industrial concrete floor systems help ensure that your slab is protected in harsh conditions, so you can stop worrying about the integrity of your flooring and get back to business.

Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. High build
5. Excellent adhesion
6. Suitable for heavy use and mechanical loads

Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution.

Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
