

## Low VOC Industrial Epoxy Floor Coating Grade 2 Pack Epoxy Floor Paint Seamless

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-5001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 25 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

CREKOAT

### Product Specification

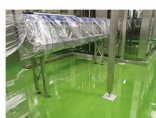

- Features: Salt Resistant
- Name: Industrial Floor Coating
- Materials: 2 Pack Floor Paint
- State: Liquid Coating
- Mixing Ratio: 5:1 By Weight
- Pot Life: 30 Minutes
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Low VOC Industrial Epoxy Floor Coating, Industrial Epoxy Floor Coating Grade, 2 Pack Epoxy Floor Paint Seamless

## Product Description

### Seamless High Build Self Leveling Epoxy Floor Coating Industrial Grade

#### Product Descriptions:

Product Name	Seamless Industrial Epoxy Floor
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.5kg/sqm per coat

#### Quick Details:

Self-leveling epoxy is a coating applied to a slab of concrete and, as the name suggests, it's easy to apply because it self-levels and spreads out across the flooring surface. It quickly creates a single seamless surface across the floor. While general epoxy coatings can also create a seamless floor, self-leveling epoxy leaves nothing to chance. Rather than use rollers to apply the epoxy compound onto a floor that could cause and inconsistencies, self-leveling epoxy is specially formulated for an application to balance out and give you a truly smooth and even surface.

#### Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. High build
5. Low VOC
6. Suitable for heavy use and mechanical loads

#### Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution.

Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
