

Liquid Warehouse Concrete Epoxy Flooring Paint Customizable Colors

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-4001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 20 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

CREKOAT

Product Specification

- Features: Slip Resistant
- Materials: Industrial Concrete Coatings
- State: Liquid Coating
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Warehouse Concrete Epoxy Flooring Paint, Concrete Epoxy Flooring Paint Liquid, Warehouse Epoxy Flooring Paint

Product Description

Factory Warehouse Seamless Epoxy Flooring Paint For Concrete

Product Descriptions:

Product Name	Waterproof Epoxy For Concrete
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.2kg/sqm per coat

Quick Details:

When it comes to a new industrial floor coating, epoxy is the best solution. But what exactly does that mean? Industrial floor epoxy is a two-component product consisting of one part epoxy resin and one part polyamine hardener. When these two chemicals are combined, a process called "curing" results. The two components get mixed together prior to application offering a very hard and durable surface that is resistant to staining, abrasion, and chemicals. Epoxy coatings are used over concrete floors in a variety of industries and provide a decorative, high gloss finish that is available in a variety of colours and styles.

Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. High build
5. Customizable colors
6. Suitable for heavy use and mechanical loads

Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution.

Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
