

## Fast Drying Chemical Resistant Industrial Epoxy Floor Coating Gloss Finish 1mm

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-4001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 20 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

CREKOAT

### Product Specification

- Features: Great Durability
- Materials: Best Concrete Epoxy
- State: Liquid Coating
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Fast Drying Industrial Epoxy Floor Coating, Industrial Epoxy Floor Coating Gloss Finish, Chemical Resistant Floor Coating 1mm

## Product Description

### Chemical Resistant Epoxy Floor Coating for Industrial Flooring

#### Product Descriptions:

Product Name	Interior Epoxy Flooring
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.2kg/sqm per coat

#### Quick Details:

Epoxy coatings have gained widespread popularity due to their rapid drying, durability, and protective properties when applied to concrete, metals, and various surfaces. They offer exceptional resistance against chemicals, including acids. This characteristic makes epoxy floor coatings particularly suitable for areas subjected to medium to heavy loads, such as storage spaces, warehouses, and production areas. Employing an epoxy coating for flooring applications ensures a robust and long-lasting flooring solution.

These coatings find extensive use across diverse industries, providing not only protection but also an attractive, high-gloss finish available in an array of colors and styles.

#### Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. Highly cost effective
5. Customizable colors
6. Suitable for heavy use and mechanical loads

#### Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution.

Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
