

Visibility Grey Epoxy Floor Paint Poured Top Coat Concrete Coatings Strength

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: SBTC-4001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 20 kg in an iron bucket, Part B: 5 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

CREKOAT

Product Specification

- Features: Safety And Visibility
- Name: Grey Epoxy Floor Paint
- State: Liquid Coating
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: **Visibility Grey Epoxy Floor Paint,
Grey Epoxy Floor Paint Poured,
Top Coat Concrete Coatings Strength**

Product Description

Great Durability High Resistance Industrial Epoxy Flooring Topcoat

Product Descriptions:

Product Name	Best Epoxy Floor Coatings
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.2kg/sqm per coat

Quick Details:

Another benefit of epoxy coating is its great durability strength. Using epoxy over concrete floors will last much longer than wood, carpets, or tiles would. It has protective qualities that allow it to resist significant wear, stains, water, as well as shock. It is a solid and practical choice that does not require any replacements or redos for extended periods. Durability might be the thing that makes epoxy floors so cost-efficient, which in turn allows companies to invest the money in other important things.

Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. Quick installation
5. Customizable colors
6. Suitable for heavy use and mechanical loads

Advantages:

Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution.

Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
