

## Poured High Solids Red Metallic Epoxy Floor Coating Smoothed Hardness

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: MTC-3001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 15 kg in an plastic bucket, Part B: 5 kg in an plastic bucket.
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

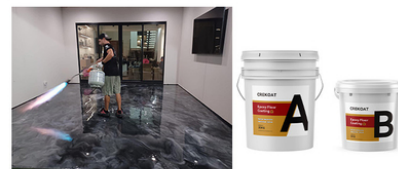

**CREKOAT**

### Product Specification

- Features: Gloss Durable Finish
- Name: Metallic Epoxy Floor Coating
- Materials: Red Metallic Epoxy Floor
- Mixing Ratio: 3:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: **Poured Metallic Epoxy Floor Coating, Metallic Epoxy Floor Coating Smoothed, High Solids Epoxy Floor Coating Hardness**

**CREKOAT**

## Product Description

### High Solids Red Metallic Epoxy Floor Resin Coating For Concrete

#### Product Descriptions:

Product Name	Epoxy Resin Floor Coating
Drying time (25°C)	Touch dry≤4 hours / Hard dry≤24 hours
Viscosity (25°C), cps	Part A 5000 - 5500, Part B 500-550 cps
Solid Content, %	100
Hardness, shore D	≥85
Coverage (advise 2 coats)	0.5kg/sqm per coat

#### Quick Details:

Metallic epoxy is formulated like standard epoxy flooring, but with one key difference: the introduction of tiny metallic pigment throughout the epoxy mix. Once the epoxy is poured, smoothed, and left to cure, the result is absolutely dazzling. A metallic epoxy floor is filled with metallic pigments to create sparkling swirls and wave-like patterns. There's even an element of dimensionality, giving depth and character to the floor. Better yet, every metallic epoxy floor is completely unique.

#### Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. Self leveling
5. Super gloss finish
6. Amazing and unique results

#### Advantages:

Resin floors are a widely used flooring solution. This system utilizes a mix of materials to create a hardened resin surface. This solution is applied in a liquid form, crafting a seamless flooring system. Resin flooring solutions are incredibly durable and built to last. Some thicker types of resin flooring can even be harder than concrete. By combining our various resins with specific chemical hardeners, the resulting proprietary systems achieve desired levels of chemical-resistance. Therefore, resin flooring is capable of withstanding years of harsh heavy-duty cleanings, making it a viable option for a wide range of applications. Optional additives can be incorporated into resin flooring to achieve desired effects, such as industrial or decorative aggregates, various pigments, decorative multicolored flakes or natural mica chip blends.
