

## Copper High Gloss Metallic Epoxy Concrete Paint Topcoats 3mm 100% High Solids

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: MTC-3001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 15 kg in an plastic bucket, Part B: 5 kg in an plastic bucket.
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

**CREKOAT**

### Product Specification

- Features: 100% High Solids
- Name: Metallic Epoxy Concrete Paint
- Materials: Bubble Free Clear Resin
- Mixing Ratio: 3:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Copper Metallic Epoxy Concrete Paint, Metallic Epoxy Concrete Paint Topcoats, High Gloss Concrete Paint 3mm

## Product Description

### High Gloss Copper Metallic Epoxy Floor Coating Resin Concrete Paint

#### Product Descriptions:

Product Name	Metallic Flooring Resin Coating
Drying time (25°C)	Touch dry≤4 hours / Hard dry≤24 hours
Viscosity (25°C), cps	Part A 5000 - 5500, Part B 500-550 cps
Solid Content, %	100
Hardness, shore D	≥85
Coverage (advise 2 coats)	0.5kg/sqm per coat

#### Quick Details:

Metallic epoxy is reflective and can look slippery, but it's not. Epoxy is actually an excellent option if you want non-slip flooring. It's also possible to add topcoats for further grip if necessary, while keeping your floor looking distinctively yours. Solid epoxy is extremely durable, and it is possible to engineer it further to provide more longevity. A properly-installed metallic epoxy floor will last many years with minimal maintenance. And if the surface does become damaged from falling objects or similar abrasions, it can often be repaired for a nominal cost.

#### Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. Self leveling
5. Super gloss finish
6. Amazing and unique results

#### Advantages:

Resin floors are a widely used flooring solution. This system utilizes a mix of materials to create a hardened resin surface. This solution is applied in a liquid form, crafting a seamless flooring system. Resin flooring solutions are incredibly durable and built to last. Some thicker types of resin flooring can even be harder than concrete. By combining our various resins with specific chemical hardeners, the resulting proprietary systems achieve desired levels of chemical-resistance. Therefore, resin flooring is capable of withstanding years of harsh heavy-duty cleanings, making it a viable option for a wide range of applications. Optional additives can be incorporated into resin flooring to achieve desired effects, such as industrial or decorative aggregates, various pigments, decorative multicolored flakes or natural mica chip blends.
