

1mm Self Leveling Metallic Epoxy Floor Coating Yellowing Low Odor ECO Friendly

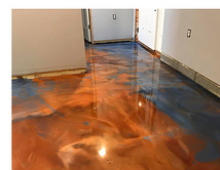

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: MTC-3001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 15 kg in an plastic bucket, Part B: 5 kg in an plastic bucket.
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

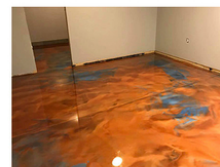

CREKOAT

Product Specification

- Features: 100% Transparent
- Name: Metallic Epoxy Floor Coating
- Materials: Metallic Epoxy Resin
- Mixing Ratio: 3:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: 1mm Metallic Epoxy Floor Coating,
Self Leveling Metallic Epoxy Floor Coating,
Self Leveling Floor Coating Yellowing

Product Description

ECO Friendly Low Odor Metallic Epoxy Floor Coating Self Leveling

Product Descriptions:

Product Name	Metallic Floor Coating
Drying time (25°C)	Touch dry≤4 hours / Hard dry≤24 hours
Viscosity (25°C), cps	Part A 5000 - 5500, Part B 500-550 cps
Solid Content, %	100
Hardness, shore D	≥85
Coverage (advise 2 coats)	0.5kg/sqm per coat

Quick Details:

In scientific terms, a metallic epoxy floor coating is a low yellowing epoxy with a metallic pigment mixed within. In layman's terms, it is when small, glitter-like pigments are mixed into an epoxy resin and poured onto the floor. Then, when these pigments are agitated with a paintbrush or roller, they gather separate, twist and turn. By doing so, they reflect light at different angles and create the glare that makes them popular.

Eventually, this epoxy will harden and the metallic pigments become stuck into place and give the floor a three dimensional, swirly look. The installation will determine the final look. That makes the process critical in order to achieve the desired look.

Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. Self leveling
5. High gloss finish
6. Amazing and unique results

Advantages:

Resin floors are a widely used flooring solution. This system utilizes a mix of materials to create a hardened resin surface. This solution is applied in a liquid form, crafting a seamless flooring system. Resin flooring solutions are incredibly durable and built to last. Some thicker types of resin flooring can even be harder than concrete.

By combining our various resins with specific chemical hardeners, the resulting proprietary systems achieve desired levels of chemical-resistance. Therefore, resin flooring is capable of withstanding years of harsh heavy-duty cleanings, making it a viable option for a wide range of applications. Optional additives can be incorporated into resin flooring to achieve desired effects, such as industrial or decorative aggregates, various pigments, decorative multicolored flakes or natural mica chip blends.
