Quick Details:

Unlike flooring systems that are installed in tiles, sheets, or blocks, resinous floor coatings are fluid-applied coatings that create a virtually seamless surface over a concrete slab and are available in various textures and colors. Decorative flake floor coatings consist of colored flakes suspended in a clear resin, so the distribution of flakes is truly random and organic, unlike repeating tile patterns that attempt to achieve a natural look.

Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. High gloss finish
5. Fast application
6. Amazing and unique results

Advantages:

Epoxy resin floor coating provides a high-gloss and durable layer. Floor coatings made of 100% solid epoxy can be made to be seamless and chemical, antimicrobial and slip-resistant. The durable and stunning appearance that comes from this epoxy finish will endure for many years to come, with minimal or no maintenance other than regular cleaning using mild cleaning products. The floors appear stunning, and your needs for performance are met. Epoxy Resin floors are great for galleries and waiting rooms, showrooms, restaurants, hotels, or any other place that needs to display a touch of glamour.
