

Shimmering Epoxy Resin Pigment Vivid Colors Organic Metallic Mica Powder

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: -
- Minimum Order Quantity: 500KG
- Packaging Details: 25kg per barrel, barrel size: 38cm(dia)*48cm(H), gross weight 28kg
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

Product Specification

- Name: Epoxy Resin Pigment
- Feature: Natural And Shimmering
- Materials: Organic Mica Powder
- Colours: 80
- Package: Customized
- Logo: Customized
- Particle Size: 5-25 Micron, 10-60 Micron, 10-100um, etc
- Type: Titanium
- Highlight: Shimmering Epoxy Resin Pigment, Epoxy Resin Pigment Vivid Colors, Organic Metallic Mica Powder

Product Description

Cosmetic Grade Metallic Mica Powder Epoxy Resin Pigment Vivid Colors

Product Descriptions:

Product Name	Blue Mica Powder
Ingredients	Titanium Dioxide, Mica, Silica, Iron Oxide, Tin Oxide
Usage	Coating Pigment, Cosmetic Pigment
Certificate	SGS,MSDS,TDS
Odor	Odorless
Features	High Purity, Non-Toxic

Quick Details:

Mica is a colored powder that's made from a natural mineral called muscovite. Muscovite is a silicate mineral, in the same family as quartz. Before it's processed, mica comes out of the ground in large pearlescent sheets or flakes, which have a naturally shimmering, iridescent property.

Mica flakes are ground into a fine powder, which is usually an off-white or khaki color. Natural oxides are then applied to the mica with heat to transform it into a vibrant color. Mica powder can also be made from the lab-created version of the muscovite mineral, which is called fluorophlogopite.

Features:

1. Odor-free and Nontoxic
2. High quality mica powder
3. Low microns – Small particle size for better blending
4. Chemically stable
5. Shimmer and shine
6. 80 intense colors available

Advantages:

Vibrant mica powder pigments in a variety of colors are ideal for creating unique epoxy river tables, epoxy jewelry, coasters, charcutery boards and much more. Works great with our crystal-clear epoxy resin. It is a new type of pearlescent luster pigment produced by the natural mica thin skin covered with metal oxide. It can reproduce the gorgeousness and color of natural pearls, shells, corals and metals.
