Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: -
- Minimum Order Quantity: 500KG
- Packaging Details: 25kg per barrel, barrel size: 38cm(dia)*48cm(H), gross weight 28kg
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

Product Specification

- Name: Epoxy Resin Pigment
- Feature: Multi Purpose
- Materials: Cosmetic Mica Powder
- Colours: 80
- Package: Customized
- Logo: Customized
- Particle Size: 5-25 Micron, 10-60 Micron, 10-100um, etc
- Type: Titanium
- Highlight: **Luster Pearlescent Resin Pigment,
Pearlescent Resin Pigment,
Epoxy Mica Powder Set**

Product Description

Wide Application Pearlescent Resin Pigment Epoxy Mica Powder Set

Product Descriptions:

Product Name	Green Mica Powder
Ingredients	Titanium Dioxide, Mica, Silica, Iron Oxide, Tin Oxide
Usage	Coating Pigment, Cosmetic Pigment
Certificate	SGS,MSDS,TDS
Odor	Odorless
Features	High Purity, Non-Toxic

Quick Details:

Mica Pigment Powder can be added to epoxy resin to add a shimmering, glittering colour to decorative resin floors, countertops, bartops, jewellery, castings for wood-turning or pen-blanks, river tables and more.

This coloured metallic-effect mica powder is 100% compatible with clear epoxy resin and can be added at a range of different concentrations to achieve different effects.

Adding tiny percentages will create a shimmering effect where it is still possible to see down through the resin, resulting in a casting that remains translucent but which is tinted by the colour of the pigment powder and also shimmers in the light. Adding a higher percentage will produce a solid-colour appearance similar to metallic paint.

Features:

1. Odor-free and Nontoxic
2. High quality mica powder
3. Low microns – Small particle size for better blending
4. Chemically stable
5. Shimmer and shine
6. 80 intense colors available

Advantages:

Vibrant mica powder pigments in a variety of colors are ideal for creating unique epoxy river tables, epoxy jewelry, coasters, charcutery boards and much more. Works great with our crystal-clear epoxy resin. It is a new type of pearlescent luster pigment produced by the natural mica thin skin covered with metal oxide. It can reproduce the gorgeousness and color of natural pearls, shells, corals and metals.
