

## Natural Pearl White Mica Powder High Purity Shine Metallic Powder Epoxy

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: -
- Minimum Order Quantity: 500KG
- Packaging Details: 25kg per barrel, barrel size: 38cm(dia)\*48cm(H), gross weight 28kg
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

### Product Specification

- Name: Epoxy Resin Pigment
- Feature: Vibrant Colors
- Materials: Metallic Powder For Epoxy
- State: Powder
- Colours: 80
- Package: Customized
- Particle Size: 5-25 Micron, 10-60 Micron, 10-100um, etc
- Type: Titanium
- Highlight: **Natural Pearl White Mica Powder, Pearl White Mica Powder High Purity, Shine Metallic Powder Epoxy**

## Product Description

### White Mica Powder Natural Mica Pigment Powder Epoxy Colors

#### Product Descriptions:

Product Name	White Mica Powder
Ingredients	Titanium Dioxide, Mica, Silica, Iron Oxide, Tin Oxide
Usage	Coating Pigment, Cosmetic Pigment
Certificate	SGS,MSDS,TDS
Odor	Odorless
Features	High Purity, Non-Toxic

#### Quick Details:

It's really easy to get started with pigment powders but there are lots of opportunities to develop your own creative techniques as you experiment with them. One of the most distinctive features of the powders is the way that that 'swirls' are produced when you pour or stir through resin that's been pigmented with them, allowing amazing patterns to be created. These swirling effects can be created when you first pour the resin or can be added a little later, as the resin starts to just slightly thicken as it cured.

For other creative effects try mixing different coloured powders together or try carefully pouring resin tinted with different colours together to create marble effects. Powders can also be combined with our Epoxy Pigments to add some sparkle to tinted resin.

#### Features:

1. Odor-free and Nontoxic
2. High quality mica powder
3. Low microns – Small particle size for better blending
4. Chemically stable
5. Shimmer and shine
6. 80 intense colors available

#### Advantages:

Vibrant mica powder pigments in a variety of colors are ideal for creating unique epoxy river tables, epoxy jewelry, coasters, charcutery boards and much more. Works great with our crystal-clear epoxy resin. It is a new type of pearlescent luster pigment produced by the natural mica thin skin covered with metal oxide. It can reproduce the gorgeousness and color of natural pearls, shells, corals and metals.
