

1mm Heavy Traffic Floor Paint Textured Slip Resistant Coating High Build MSDS

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: ASL-3001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 18 kg in an iron bucket, Part B: 6 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

CREKOAT

Product Specification

- Features: Slip Resistant
- Name: Anti Slip Coating
- State: Liquid Coating
- Mixing Ratio: 3:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: 1mm Heavy Traffic Floor Paint, Heavy Traffic Floor Paint MSDS, Textured Slip Resistant Coating

Product Description

High Build Anti Slip Floor Coating For Heavy Industrial Traffic

Product Descriptions:

Product Name	Anti Slip Floor Finish
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.25kg/sqm per coat

Quick Details:

Anti-Slip Floor Paint is a heavy duty, epoxy resin floor coating designed as a safe flooring option for areas subject to high foot traffic such as stadiums, factories, warehouses and public event spaces. The paint is available in a range of grades from fine to coarse and is a great option for areas subject to wet conditions such as kitchens, dispatch areas and poolsides. High durability and great slip resistance make this the perfect floor paint for industrial or commercial use.

Features:

1. Textured gloss coloured finish
2. Resistant to stains and water
3. High durability
4. Excellent adhesion
5. Abrasion resistance
6. Suitable for heavy use and mechanical loads

Advantages:

Many companies chose epoxy flooring for its ease and strength. Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are just some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
