

UV Resistant Anti Slip Floor Coating Spray Non Slip Concrete Paint TDS

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: ASL-3001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 18 kg in an iron bucket, Part B: 6 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

Product Specification

- Features: Highly Durable
- Name: Anti Slip Floor Coating
- State: Liquid Coating
- Mixing Ratio: 3:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: UV Resistant Anti Slip Floor Coating, Anti Slip Floor Coating TDS, Spray Non Slip Concrete Paint

Product Description

Excellent Adhesion Anti Slip Floor Coating Chemical Resistance

Product Descriptions:

Product Name	Non Slip Concrete Paint
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.25kg/sqm per coat

Quick Details:

Non-Slip Epoxy Paint is an anti-slip surface coating specifically designed to provide a UV resistant highly durable, barefoot-friendly textured paint finish on a variety of substrates. Non-slip paint is easy to maintain and ideal for use on diamond-plate, metal ramps, garages, boats, decks, trailers, stairs, locker rooms, pools, laundry rooms and other residential or commercial areas where anti-slip protection is desired. It can be used to seal unwanted leaks in floors or grout. Other benefits will prevent salt and corrosion on metal and other surfaces.

Features:

1. Textured gloss coloured finish
2. Resistant to stains and water
3. High durability
4. Excellent adhesion
5. Abrasion resistance
6. Suitable for heavy use and mechanical loads

Advantages:

Many companies chose epoxy flooring for its ease and strength. Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are just some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
