

Concrete 2 Component Slip Resistant Epoxy Paint Gloss Fast Curing

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: ASL-3001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 18 kg in an iron bucket, Part B: 6 kg in an iron bucket
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

CREKOAT

Product Specification

- Features: Slip Resistant
- Name: 2 Component Epoxy Paint
- State: Liquid Coating
- Mixing Ratio: 3:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Concrete Slip Resistant Floor Paint, Gloss Slip Resistant Floor Paint, 2 Component Epoxy Paint Fast Curing

Product Description

Two Component Anti Slip Floor Coating Fast Curing Epoxy Paint

Product Descriptions:

Product Name	Anti Slip Floor Finish
Drying time (25°C)	Touch dry≤6 hours / Hard dry≤24 hours
Impact resistance 500g steel ball (g·cm)	Pass
Wear resistance (700g / 500r)	≤0.03g
Pencil Hardness (H)	≥3
Coverage (advise 2 coats)	0.25kg/sqm per coat

Quick Details:

Anti Slip Floor Coating is a two-component, Low VOC, fast curing epoxy anti-slip coating. It has been engineered to provide anti-slip protection and maximum durability in areas containing up to heavy rolling and pedestrian traffic. It is suitable for flooring, ramps, steps, and other areas where a durable slip-resistant surface is desired. Anti Slip Floor Coating is suitable for industrial, commercial, marine, and consumer environments. It is easy to apply and has very little odor which makes it ideal for use in odor-sensitive areas both indoor and outdoor. It is designed to adhere to a variety of surfaces including concrete, metal, wood, and other surfaces.

Features:

1. Textured gloss coloured finish
2. Resistant to stains and water
3. High durability
4. Excellent adhesion
5. Abrasion resistance
6. Suitable for heavy use and mechanical loads

Advantages:

Many companies chose epoxy flooring for its ease and strength. Epoxy flooring is the perfect solution for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are just some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps.
