Quick Details:

Easier clean up – untreated garage floors are some of the most difficult to clean up after, especially since concrete is porous. Add a layer of acrylic paint on top however, and it is easy to wipe or wash off dirt, food, grime, or other stain causing material that falls on it.

Protective surface – concrete, though durable, is not above chipping and cracking. In a very active garage, this is an unavoidable drawback that comes about from the inevitable clang and bang of tools, equipment, or other hard objects. Acrylic paints can cover over most of the chips and cracks on concrete garage floors, and even help to prevent them from occurring, as it acts as a protective layer on top of the concrete minimising any damage caused to it.

Features:

1. Textured gloss coloured finish
2. Resistant to stains and water
3. Durability
4. Cost effectiveness
5. Fast Application
6. Suitable for heavy use and mechanical loads

Advantages:

Our Acrylic floor paint is an easy to apply and fast drying with low odour for foot and light truck traffic. Suitable for internal and external applications such as bricks, window ledges and walls. It can be used on tarmac as well as concrete, asphalt, wood, walls and bricks. This low odour floor paint offers a quick drying and durable coating of high quality paint. It is slip resistant, which makes it ideal for almost any different environment. Having an anti slip surface, this helps towards the prevention of injuries to employees and general domestic users.
