

Nacreous High Gloss Metallic Epoxy Floor Coating Exotic Look Stability

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: MTC-3001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 15 kg in an plastic bucket, Part B: 5 kg in an plastic bucket.
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

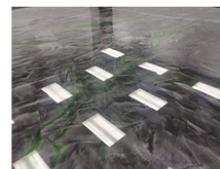

CREKOAT

Product Specification

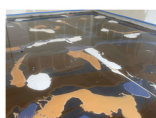

- Features: Dynamic & Exotic Look
- Name: Metallic Epoxy Floor Coating
- State: Liquid Coating
- Mixing Ratio: 3:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: High Gloss Metallic Epoxy Floor Coating, Metallic Epoxy Floor Coating Exotic, Nacreous High Gloss Epoxy Coating

Product Description

High Gloss Color Stability Metallic Epoxy Resin Floor Coating

Product Descriptions:

Product Name	Residential Epoxy Flooring
Drying time (25°C)	Touch dry≤4 hours / Hard dry≤24 hours
Viscosity (25°C), cps	Part A 5000 - 5500, Part B 500-550 cps
Solid Content, %	100
Hardness, shore D	≥85
Coverage (advise 2 coats)	0.5kg/sqm per coat

Quick Details:

Metallic Epoxy Floor is a special next-generation decorative epoxy coating blend of metallic powder and clear high-solid epoxy resin to create elegance and style effects. In fact, the concrete surface sealed with metallic epoxy is a very exotic coating solution. The metallic additives continue to flow through the epoxy as it cures, creating a nacreous effect, and the lava flows. As a matter of fact, there are no two metallic epoxy floors alike.

Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. Self leveling
5. High gloss finish
6. Amazing and unique results

Advantages:

Resin floors are a widely used flooring solution. This system utilizes a mix of materials to create a hardened resin surface. This solution is applied in a liquid form, crafting a seamless flooring system. Resin flooring solutions are incredibly durable and built to last. Some thicker types of resin flooring can even be harder than concrete. By combining our various resins with specific chemical hardeners, the resulting proprietary systems achieve desired levels of chemical-resistance. Therefore, resin flooring is capable of withstanding years of harsh heavy-duty cleanings, making it a viable option for a wide range of applications. Optional additives can be incorporated into resin flooring to achieve desired effects, such as industrial or decorative aggregates, various pigments, decorative multicolored flakes or natural mica chip blends.
