

Pure Metallic Epoxy Floor Coating Solvent Free Epoxy Coating Gloss

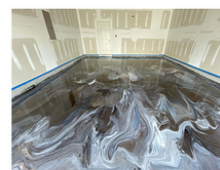

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: MTC-3001
- Minimum Order Quantity: 500KG
- Packaging Details: Part A: 15 kg in an plastic bucket, Part B: 5 kg in an plastic bucket.
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 300, 000 kg per day

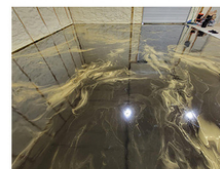

CREKOAT

Product Specification

- Features: Low Viscosity
- Name: Metallic Epoxy Floor Coating
- Materials: Resin Floor Coating
- State: Liquid Coating
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Thickness: 1mm~3mm
- Application: Brush, Roller, Spray
- Highlight: Pure Metallic Epoxy Floor Coating, Metallic Epoxy Floor Coating Solvent Free, Solvent Free Epoxy Coating Gloss

Product Description

Chemically Resistant Pure Metallic Epoxy Floor Coating Solvent Free

Product Descriptions:

Product Name	3D Metallic Floor
Drying time (25°C)	Touch dry≤4 hours / Hard dry≤24 hours
Viscosity (25°C), cps	Part A 5000 - 5500, Part B 500-550 cps
Solid Content, %	100
Hardness, shore D	≥85
Coverage (advise 2 coats)	0.5kg/sqm per coat

Quick Details:

Besides the attractive look, an epoxy pure metallic system is also known for its durability and abrasion resistance. The installation process is artistic, provides various applications, and is easy to clean. The dirt will never get into it and never make you concerned while cleaning. Your floor will always be spotless with no effort for maintenance. In fact, the shiny reflection gives it a glamor look. It will increase the artist feeling you get in your space that you can't get with standard epoxy floor paint.

Features:

1. Seamless, easily cleanable surface
2. Resistant to stains and water
3. Durability
4. Self leveling
5. High gloss finish
6. Amazing and unique results

Advantages:

Resin floors are a widely used flooring solution. This system utilizes a mix of materials to create a hardened resin surface. This solution is applied in a liquid form, crafting a seamless flooring system. Resin flooring solutions are incredibly durable and built to last. Some thicker types of resin flooring can even be harder than concrete. By combining our various resins with specific chemical hardeners, the resulting proprietary systems achieve desired levels of chemical-resistance. Therefore, resin flooring is capable of withstanding years of harsh heavy-duty cleanings, making it a viable option for a wide range of applications. Optional additives can be incorporated into resin flooring to achieve desired effects, such as industrial or decorative aggregates, various pigments, decorative multicolored flakes or natural mica chip blends.
