

Low VOC Powder Epoxy Resin Metallic Epoxy Paint Flooring System

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 300KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Brand: Garage Floor Coating
- Property: Nonslip And Skid-resistant
- Materials: Clear Epoxy Resin And Hardener
- Key Words: Glass Like Metallic Finish
- Application: Wood, Brick, Ceramic, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Highlight: Epoxy Resin Metallic Epoxy Paint, Low VOC Powder Metallic Epoxy Paint

Product Description

Low VOC Powder Epoxy Resin Metallic Epoxy Paint Flooring System

Quick Details Of Powder Epoxy Resin:

Metallic epoxy floor coatings can create a dazzling array of finishes, making them one of the most popular coating systems on the internet. The material is processed through brushes, solvents and blowers to cure it in a certain way. Using these different methods can produce finishes that mimic the appearance of clouds, waves, and lava. What most people don't realize is that the chemistry in flooring solutions is so sporadic that no two metallic epoxy finishes are the same, even if they are applied by the same contractor.

Features Of Powder Epoxy Resin:

1. The versatility of application areas
2. Excellent adhesion
3. Contains no solvent with a very low VOC
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant coating

Advantages Of Powder Epoxy Resin:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Installation technique is what determines the final look of your floor and is a key part of achieving the desired look.

Metallic epoxy floor coatings are not only aesthetically pleasing, but also offer many other benefits. Metallic epoxy floor coatings can be customized to be extremely durable, low yellowing, seamless, antimicrobial, non-slip and chemical resistant. These floors not only look beautiful, but can meet all your performance needs. They are perfect for waiting rooms, exhibition rooms, restaurants, galleries and more.

Product Descriptions Of Powder Epoxy Resin:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	600-800 mPa·s	50-150
Density, g/cm ³	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	16-24hrs@25°C, 12-15hrs@35°C 24hrs, Dry Completely	
Max Pour Depth	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages; Warehouses; Airports and hangars; Commercial Use - Shopping malls and boutiques; Hotels; Offices; Showrooms; Restaurants; Hospitals; Schools; Bar Tops, Table Tops. Residential Use – Entrances and hallways; basements; entertainment rooms; bathrooms; kitchens and living rooms;
