

Self Leveling Black Metallic Epoxy Floor Coating for Ceramic

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 300KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Item Name: Epoxy Concrete Floor
- Idiosyncrasy: Mirror-Like Crystal Clear Finish
- Materials: Epoxy Resin And Hardener
- Key Words: Glass Like Metallic Finish
- Application: Wood, Brick, Ceramic, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Highlight: **Black Metallic Epoxy Floor Coating, Self Leveling Metallic Epoxy Floor Coating**

Product Description

Self Leveling Flooring Epoxy Resin Black Metallic Epoxy Floor

Quick Details Of Flooring Epoxy Resin:

Metallic Marble is a decorative marble look flooring system for residential and commercial applications, available in a variety of finishes, matt, semi-gloss or high-gloss. Unique styles, designs and patterns for you to create beautiful floors that match the color scheme of your home, showroom or display surface.

Pearlescent metallic pigments used in epoxy resins to create unique marble floor coatings in pearlescent, shimmering and iridescent shades with a shiny finish. Gloss can be adjusted on a range of matte, semi-gloss to high-gloss finishes. Metallic floor coatings are the latest in the fusion of artistic and industrial applications. Ideal for commercial applications, retail environments and residential customers looking for longevity and a point of differentiation. Manufactured by CREKOAT, this product is odorless, self-leveling and easy to apply.

Features Of Flooring Epoxy Resin:

1. Superior chemical and abrasion resistance
2. Custom colors and textures
3. Cost-effective
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant coating

Advantages Of Flooring Epoxy Resin:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Installation technique is what determines the final look of your floor and is a key part of achieving the desired look.

Metallic epoxy floor coatings are not only aesthetically pleasing, but also offer many other benefits. Metallic epoxy floor coatings can be customized to be extremely durable, low yellowing, seamless, antimicrobial, non-slip and chemical resistant. These floors not only look beautiful, but can meet all your performance needs. They are perfect for waiting rooms, exhibition rooms, restaurants, galleries and more.

Product Descriptions Of Flooring Epoxy Resin:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	600-800 mPa.s	50-150
Density, g/cm ³	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	16-24hrs@25°C, 12-15hrs@35°C 24hrs, Dry Completely
