

Long Lasting Metallic 3d Epoxy Flooring Coating For Wood Brick

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 300KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Entity Names: Self Leveling Epoxy
- Symbolic: Free Of Solvents
- Materials: Epoxy Resin And Hardener
- Key Words: Glass Like Metallic Finish
- Application: Wood, Brick, Ceramic, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Highlight: **Metallic 3d Epoxy Flooring Coating, Long Lasting 3d Epoxy Flooring Coating**

Product Description

Long Lasting Metallic Epoxy Resin 3d Epoxy Flooring Coating

Quick Details Of Metallic Epoxy Resin:

Epoxy floors are celebrated for their sleek, professional appearance and effortless maintenance. Unlike hardwood floors that demand specific cleaners, epoxy floors easily withstand various cleaning solutions, simplifying spill clean-ups and routine maintenance.

The automotive industry favors epoxy floor coatings primarily due to their exceptional electrical resistance. They exhibit resilience against bleach, oil, gasoline, detergents, transmission fluid, and more. Furthermore, these floors boast heat and water resistance, ensuring durability in demanding environments.

Remarkably, epoxy floors provide outstanding fire protection due to certain pigments within the coating that expand when exposed to heat. This expansion forms a protective barrier, effectively enhancing fire resistance until the fire is extinguished or burns out. This robust feature adds an extra layer of safety, making epoxy floors an ideal choice across diverse industries and settings.

Features Of Metallic Epoxy Resin:

1. Easy to mix with no confusion
2. Low Vocs, No Harmful Smells
3. A wide variety of applications
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant coating

Advantages Of Metallic Epoxy Resin:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Installation technique is what determines the final look of your floor and is a key part of achieving the desired look.

Metallic epoxy floor coatings are not only aesthetically pleasing, but also offer many other benefits. Metallic epoxy floor coatings can be customized to be extremely durable, low yellowing, seamless, antimicrobial, non-slip and chemical resistant. These floors not only look beautiful, but can meet all your performance needs. They are perfect for waiting rooms, exhibition rooms, restaurants, galleries and more.

Product Descriptions Of Metallic Epoxy Resin:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	600-800 mPa·s	50-150
Density, g/cm3	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	16-24hrs@25°C, 12-15hrs@35°C 24hrs, Dry Completely	
Max Pour Depth	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages; Warehouses; Airports and hangars; Commercial Use - Shopping malls and boutiques; Hotels; Offices; Showrooms; Restaurants; Hospitals; Schools; Bar Tops, Table Tops. Residential Use – Entrances and hallways; basements; entertainment rooms; bathrooms; kitchens and living rooms;
