

Garage Metallic Epoxy Floor Coating Waterproof High Strength Epoxy Resin Copper

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 300KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

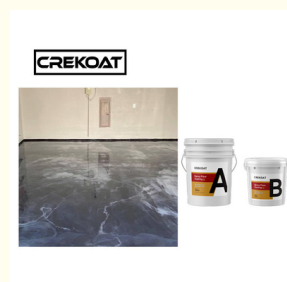

Product Specification

- Name Of The Element: Best Garage Floor Epoxy
- Special Feature: High Gloss Resistant Formula
- Materials: Epoxy Resin And Hardener
- Key Words: Glass Like Metallic Finish
- Application: Wood, Brick, Ceramic, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Highlight: Garage Metallic Epoxy Floor Coating, Metallic Epoxy Floor Coating High Strength

Product Description

Waterproof High Strength Epoxy Resin Copper Metallic Epoxy Floor

Quick Details Of High Strength Epoxy Resin:

Metallic epoxy is the most versatile and affordable 3D decorative flooring system. Is a multi-layer system consisting of metallic pigments mixed with a clear epoxy resin. Metallic pigments move as the epoxy cures, creating lava flows or pearlescent designs.

Thanks to the constant movement of metallic paint, each floor, even if done in the same color, looks unique. Metallic epoxy is the easiest way to create unique and creative spaces that will increase the value of your property. It is difficult to determine how long a floor will last because it depends on how worn it is and how well it is maintained. But don't worry, the typical service life is 5-15 years, so you can expect your new metallic floor to last longer.

Features Of High Strength Epoxy Resin:

1. Fast drying and hard as a rock
2. Self Leveling & Bubbles Free
3. Absolutely safe and truthful
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough and water resistant coating

Advantages Of High Strength Epoxy Resin:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Installation technique is what determines the final look of your floor and is a key part of achieving the desired look.

Metallic epoxy floor coatings are not only aesthetically pleasing, but also offer many other benefits. Metallic epoxy floor coatings can be customized to be extremely durable, low yellowing, seamless, antimicrobial, non-slip and chemical resistant. These floors not only look beautiful, but can meet all your performance needs. They are perfect for waiting rooms, exhibition rooms, restaurants, galleries and more.

Product Descriptions Of High Strength Epoxy Resin:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	600-800 mPa.s	50-150
Density, g/cm ³	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	16-24hrs@25°C, 12-15hrs@35°C 24hrs, Dry Completely	
Max Pour Depth	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages; Warehouses; Airports and hangars; Commercial Use - Shopping malls and boutiques; Hotels; Offices; Showrooms; Restaurants; Hospitals; Schools; Bar Tops, Table Tops. Residential Use – Entrances and hallways; basements; entertainment rooms; bathrooms; kitchens and living rooms;
