

Oil Bonding Industrial Epoxy Floor Coating Epoxy Primer For Concrete

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: SGS, TDS, MSDS
- Model Number: CK-PT4001
- Minimum Order Quantity: 300KG
- Price: US\$3.5-5.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Trademark: Industrial Floor Coatings
- Appropriate: Easy To Clean, Waterproof
- Materials: Epoxy Resin And Hardener
- Key Words: Seamless, High Gloss Finish
- Application: Wood, Brick, Ceramic, Concrete
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Highlight: **Primer Industrial Epoxy Floor Coating**

Product Description

Oil Bonding Industrial Epoxy Floor Coating Epoxy Primer For Concrete Base

Quick Details Of Industrial Epoxy Floor Coating:

This magical product is the answer to floors contaminated with grease, which does not come out through chemical or power cleaning. Generally, you cannot apply epoxy resin to oil and grease. Epoxy resin will not adhere properly to concrete. Epoxy primer allows you to roll directly on oil contaminated floors and paint without worrying about adhesion between the floor and primer, as well as between the primer and one of our coatings. Our system is an effective way to handle these types of floors, which are prone to failure when attempting epoxy coating. We provide a 2-year warranty to prevent delamination of the primer or epoxy resin from the primer.

Simply perform a normal cleaning and etching of your floor (don't worry about removing all the oil and grease), dry it, mix the two parts of the primer together, and continue brushing like regular paint. Dry for 6-8 hours, then paint with any of our flooring epoxy products. Excellent coverage.

Features Of Industrial Epoxy Floor Coating:

1. Resists hot tire pickup, stains, wear
2. Advanced Durability for Interior Floors
3. Odorless, non-flammable
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant coating

Advantages Of Industrial Epoxy Floor Coating:

Epoxy flooring is specifically designed for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps. It is a high-performance decorative coating used for the floor.

Product Descriptions Of Industrial Epoxy Floor Coating:

Item	Epoxy Base Material(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Custom Colors	Transparent
Density@25°C	1.3g/cm3	
Mix Ratio	4:1 by weight	
Hardness	3H	
Pot Life	30-40mins@25°C	
Curing Time	16-24hrs@25°C, 12-15hrs@35°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages; Warehouses; Airports and hangars; Commercial Use - Shopping malls and boutiques; Hotels; Offices; Showrooms; Restaurants; Hospitals; Schools; Bar Tops, Table Tops. Residential Use – Entrances and hallways; basements; entertainment rooms; bathrooms; kitchens and living rooms;
