

Odor Free Industrial Epoxy Floor Coating Anti Static Fast Drying

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: SGS, TDS, MSDS
- Model Number: CK-PT4001
- Minimum Order Quantity: 300KG
- Price: US\$3.5-5.5/Kg
- Packaging Details: Bottle/Carton/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Name Registered As A Trademark: Best Industrial Epoxy Floor Coating
- Distinct: Do It Yourself Friendly
- Materials: Epoxy Resin And Hardener
- Key Words: Seamless, High Gloss Finish
- Application: Wood, Brick, Ceramic, Concrete
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Highlight: **Fast Drying Industrial Epoxy Floor Coating, Odor Free Industrial Epoxy Floor Coating, Anti Static Industrial Epoxy Floor Coating**

Product Description

Odor Free Industrial Epoxy Floor Coating Fast Drying

Quick Details Of Industrial Epoxy Floor Coating:

When evaluating flooring materials, wear resistance refers to the lifespan of the flooring. How will it support pedestrian and mechanical transportation? Will continuous use of the surface cause cuffs and scratches? Some surfaces are stronger than others. Our wear-resistant epoxy resin flooring is specially formulated to withstand harsh conditions and heavy traffic. They can also withstand dirt, dirt, and daily cleaning.

When a person walks over a standard epoxy resin floor, it is easy to generate static electricity through friction because epoxy resin is an insulating material. Wherever there is static electricity, there is electrostatic discharge. This may cause chaos in certain industries. Anti static floor coatings, also known as static dissipative flooring (1 Mohms to 1000 Mohms) or conductive flooring (.025 Mohms to 1 Mohm), provide excellent static control and suppress static electricity on people or sensitive devices. Public areas and exhibition halls can achieve their desired appearance while enjoying the sturdy and durable quality of epoxy resin.

Features Of Industrial Epoxy Floor Coating:

1. Vibrant Glossy Appearance
2. Odor free, and fast drying
3. Odorless, non-flammable
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant coating

Advantages Of Industrial Epoxy Floor Coating:

Epoxy flooring is specifically designed for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps. It is a high-performance decorative coating used for the floor.

Product Descriptions Of Industrial Epoxy Floor Coating:

Item	Epoxy Base Material(A)	Epoxy Hardener(B)
Appearance	Liquid	Liquid
Color	Custom Colors	Transparent
Density@25°C	1.3g/cm3	
Mix Ratio	4:1 by weight	
Hardness	3H	
Pot Life	30-40mins@25°C	
Curing Time	16-24hrs@25°C, 12-15hrs@35°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages; Warehouses; Airports and hangars; Commercial Use - Shopping malls and boutiques; Hotels; Offices; Showrooms; Restaurants; Hospitals; Schools; Bar Tops, Table Tops. Residential Use – Entrances and hallways; basements; entertainment rooms; bathrooms; kitchens and living rooms;
