## Product Description

### Two Component Industrial Epoxy Floor Coating Hard Durable Finish

#### Quick Details Of Industrial Epoxy Floor Coating:

Crekoat Epoxy is an advanced formula two component epoxy coating system designed to provide heavy-duty glossy finishes for concrete floor areas. Provide chemical resistance, hard and durable surface treatment that traditional resin materials cannot achieve.

Crekoat Epoxy is a dual component system product that can extend its service life. This allows for an extended application time after mixing. Cure to a full gloss surface with multiple custom colors to choose from. Crekoat Epoxy is an excellent industrial epoxy floor coating that can form good adhesion with concrete, masonry, steel, wood, or almost any sound surface.

#### Features Of Industrial Epoxy Floor Coating:

1. Seamless, low maintenance
2. Light reflectance
3. Odorless, non-flammable
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant coating

#### Advantages Of Industrial Epoxy Floor Coating:

Epoxy flooring is specifically designed for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps. It is a high-performance decorative coating used for the floor.
