

## Anti Slip Industrial Epoxy Floor Coating For Concrete Metal Wood Ceramic Tiles

Our Product Introduction

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: SGS, TDS, MSDS
- Model Number: CK-PT4001
- Minimum Order Quantity: 300KG
- Price: US\$3.5-5.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

### Product Specification

- Commercial Designations: Industrial Epoxy Resin
- Characteristics: Long Lasting Attractive Floors
- Materials: Epoxy Resin And Hardener
- Key Words: Seamless, High Gloss Finish
- Application: Wood, Brick, Ceramic, Concrete
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Highlight: **Metal Industrial Epoxy Floor Coating, Concrete Industrial Epoxy Floor Coating**

## Product Description

### Anti Slip Industrial Epoxy Floor Coating For Concrete Metal Wood Ceramic Tiles

#### Quick Details Of Industrial Epoxy Floor Coating:

PT4001 is a unique anti slip epoxy resin floor coating and sealant designed to prevent accidents in any area, as conditions such as oil, grease, water, and ice can reduce the normal traction required for safety. 100% solid epoxy resin and silica quartz aggregate can provide high strength and extremely high durability without the need for fine surface treatment. The special molecular bonding effect enables epoxy floor coatings to adhere to almost any surface, such as concrete, metal, wood, ceramic tiles, terrazzo, or slate, even the heaviest steel wheeled vehicles can withstand.

We provide a comprehensive range of concrete repair materials, including materials specifically designed for low-temperature areas such as freezers and coolers. Our floor repair products can quickly harden, allowing you to reopen the repair area in the shortest possible downtime. All of our products are designed for internal maintenance personnel and provide a 100% satisfaction guarantee.

#### Features Of Industrial Epoxy Floor Coating:

1. High strength, abrasion resistant
2. Unlimited color options
3. Odorless, non-flammable
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant coating

#### Advantages Of Industrial Epoxy Floor Coating:

Epoxy flooring is specifically designed for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps. It is a high-performance decorative coating used for the floor.

#### Product Descriptions Of Industrial Epoxy Floor Coating:

Item	Epoxy Base Material(A)	Epoxy Hardener(B)
Appearance	Liquid	Liquid
Color	Custom Colors	Transparent
Density@25°C	1.3g/cm <sup>3</sup>	
Mix Ratio	4:1 by weight	
Hardness	3H	
Pot Life	30-40mins@25°C	
Curing Time	16-24hrs@25°C, 12-15hrs@35°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages; Warehouses; Airports and hangars; Commercial Use - Shopping malls and boutiques; Hotels; Offices; Showrooms; Restaurants; Hospitals; Schools; Bar Tops, Table Tops. Residential Use – Entrances and hallways; basements; entertainment rooms; bathrooms; kitchens and living rooms;
