

Solvent Based Industrial Epoxy Floor Coating For Concrete Stains

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: SGS, TDS, MSDS
- Model Number: CK-PT4001
- Minimum Order Quantity: 300KG
- Price: US\$3.5-5.5/Kg
- Packaging Details: Bottle/Carton/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Brand Names: Industrial Epoxy Coating
- Peculiarities: Protects Against Oil And Salt
- Materials: Epoxy Resin And Hardener
- Key Words: Seamless, High Gloss Finish
- Application: Wood, Brick, Ceramic, Concrete
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Highlight: **Solvent Based Epoxy Floor Coating, Concrete Stains Epoxy Floor Coating**

Product Description

Solvent Based Industrial Epoxy Floor Coating For Concrete Stains

Quick Details Of Industrial Epoxy Floor Coating:

If you are currently using epoxy resin, concrete stains or coverings to achieve this stone like effect, and you are looking for a durable, non porous, and unique finish that business owners, homeowners, and interior designers will love, then the metal floor coating kit is what you have been looking for, which can easily and economically protect and enhance any concrete floor. Renovation of industrial, commercial, retail, restaurants, salons, spas, gyms, showrooms, residences, and many other spaces through unique concrete flooring renovations! Industrial and food grade epoxy floor paint coatings are superior to all solvent based and water-based coatings with a volume solid content below 100%.

Features Of Industrial Epoxy Floor Coating:

1. Gloss finish provides a show room shine
2. Two-component product
3. Odorless, non-flammable
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant coating

Advantages Of Industrial Epoxy Floor Coating:

Epoxy flooring is specifically designed for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps. It is a high-performance decorative coating used for the floor.

Product Descriptions Of Industrial Epoxy Floor Coating:

Item	Epoxy Base Material(A)	Epoxy Hardener(B)
Appearance	Liquid	Liquid
Color	Custom Colors	Transparent
Density@25°C	1.3g/cm3	
Mix Ratio	4:1 by weight	
Hardness	3H	
Pot Life	30-40mins@25°C	
Curing Time	16-24hrs@25°C, 12-15hrs@35°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months
