

Water Based Self Leveling Industrial Epoxy Floor Coating Non Toxic High Gloss

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: SGS, TDS, MSDS
- Model Number: CK-PT4001
- Minimum Order Quantity: 300KG
- Price: US\$3.5-5.5/Kg
- Packaging Details: Bottle/Carton/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Trading Name: Industrial Epoxy Floor Paint
- Factor: Self-leveling, Buildable Formula
- Materials: Epoxy Resin And Hardener
- Key Words: Seamless, High Gloss Finish
- Application: Wood, Brick, Ceramic, Concrete
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Highlight: Water Based Industrial Epoxy Floor Coating,
Non Toxic Industrial Epoxy Floor Coating,
High Gloss Industrial Epoxy Floor Coating

Product Description

Water Based Self Leveling Industrial Epoxy Floor Coating Non Toxic High Gloss

Quick Details Of Industrial Epoxy Floor Coating:

Our epoxy floor coating is a 100% volume solid epoxy resin based resin, with a thickness five times that of all residential or commercial grade water-based and solvent based floor coatings. Each layer can provide a self-leveling thickness of 8-20 mils and uses a proprietary formula designed for easy installation, which can be applied without special skills or prior experience, and can extend working hours by 40%, thereby reducing the pressure on DIY families or business owners.

We offer the highest quality industrial or food grade epoxy resin at the most affordable price. 100% solid epoxy resin is a solvent-free coating that contains zero (VOC) volatile organic compounds. After mixing, the two component product forms a 100% solid epoxy floor coating that is easy to apply. The coating has a non-toxic, high gloss surface treatment that can improve light reflectivity, up to 400%, and is almost odorless.

Features Of Industrial Epoxy Floor Coating:

1. Durable, polycuramine concrete coating
2. Works on interior concrete surfaces
3. Odorless, non-flammable
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant coating

Advantages Of Industrial Epoxy Floor Coating:

Epoxy flooring is specifically designed for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps. It is a high-performance decorative coating used for the floor.

Product Descriptions Of Industrial Epoxy Floor Coating:

Item	Epoxy Base Material(A)	Epoxy Hardener(B)
Appearance	Liquid	Liquid
Color	Custom Colors	Transparent
Density@25°C	1.3g/cm3	
Mix Ratio	4:1 by weight	
Hardness	3H	
Pot Life	30-40mins@25°C	
Curing Time	16-24hrs@25°C, 12-15hrs@35°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages; Warehouses; Airports and hangars; Commercial Use - Shopping malls and boutiques; Hotels; Offices; Showrooms; Restaurants; Hospitals; Schools; Bar Tops, Table Tops. Residential Use – Entrances and hallways; basements; entertainment rooms; bathrooms; kitchens and living rooms;
