

Chemical Resistance Industrial Epoxy Floor Coating Garage Floor Paint

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: SGS, TDS, MSDS
- Model Number: CK-PT4001
- Minimum Order Quantity: 300KG
- Price: US\$3.5-5.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Trade Description: Industrial Concrete Floor Coatings
- Essential Quality: Offers A Pearlescent Shine
- Materials: Epoxy Resin And Hardener
- Key Words: Seamless, High Gloss Finish
- Application: Wood, Brick, Ceramic, Concrete
- Mixing Ratio: 4:1 By Weight
- Pot Life: 30 Minutes
- Shelf Life: 12 Months
- Highlight: **Garage Floor Paint**

Product Description

Chemical Resistance Industrial Epoxy Floor Coating Garage Floor Paint

Quick Details Of Industrial Epoxy Floor Coating:

Our superior formula of industrial epoxy floor coating is stronger than the so-called "concrete coating" sold by your local hardware store. The problem with these smaller paints is that once the hot tires run over them, they will reactivate, causing the paint to adhere to the rubber and rise. Our industrial epoxy floor coating has high chemical resistance and non lifting durability, providing a armor like finish that you can count on for decades, not just a few years. Fresh appearance, as tough as nail formula. This paint is the rock in the garage floor paint. It won't peel off under harsh garage life. Enhance your treatment space with a clean and exquisite appearance, so you can have more fun in the garage.

Features Of Industrial Epoxy Floor Coating:

1. Virtually VOC and odor free
2. Complete projects quickly
3. Odorless, non-flammable
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant coating

Advantages Of Industrial Epoxy Floor Coating:

Epoxy flooring is specifically designed for floors that must withstand extreme temperatures, foot and machine traffic, chemicals, oil, and other fluids without peeling or corroding over years of constant use. Food processing, electronics, pharmaceutical, meat and poultry, distilleries, dairy, industrial, and manufacturing facilities are some of the industries for which epoxy flooring is the perfect solution. Because epoxy is poured, there aren't seams, joints, or ridges like with tile or other types of flooring. This makes epoxy a more sanitary flooring option, eliminating cracks and crevices for dirt and bacteria to hide during cleanings. Also, its smooth surface makes it easier for hospital gurneys or forklifts to roll over without jostling or resistance from floor seam bumps. It is a high-performance decorative coating used for the floor.

Product Descriptions Of Industrial Epoxy Floor Coating:

Item	Epoxy Base Material(A)	Epoxy Hardener(B)
Appearance	Liquid	Liquid
Color	Custom Colors	Transparent
Density@25°C	1.3g/cm3	
Mix Ratio	4:1 by weight	
Hardness	3H	
Pot Life	30-40mins@25°C	
Curing Time	16-24hrs@25°C, 12-15hrs@35°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months
