Product Description

UV Stable Clear Epoxy Resin Floor Coating Industrial Strength With Flakes

Quick Details Of Epoxy Resin Floor Coating:

Due to its durability, the epoxy flake coating on concrete floors should be used for at least 5-10 years, and in some cases even longer. Epoxy resin coating has industrial strength and can resist leakage, wear, and various types of damage caused by heavy machinery and pedestrian traffic, making it an ideal choice for many residential and commercial applications. The thickness of the epoxy resin used, the strength of the concrete floor, and the traffic volume in the region are all factors that determine the final lifespan of the epoxy flake coating. Watch our gallery and witness the amazing transformation of epoxy resin coating flakes on concrete floors, and get inspiration for your next residential decoration in a timely manner.

Features Of Epoxy Resin Floor Coating:

1. Unique bespoke design
2. UV Stable system
3. Odorless, non-flammable
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant

Advantages Of Epoxy Resin Floor Coating:

Epoxy Flake Coating is a highly-durable floor coating application that incorporates a double broadcast of colored flakes chips with epoxy resin and polyaspartic coatings. The system provides flooring solutions for the most demanding heavy-traffic environments, specifically in areas that require significant traction. The durable and stunning appearance that comes from this epoxy finish will endure for many years to come, with minimal or no maintenance other than regular cleaning using mild cleaning products. UV stable epoxy flake coating offers seamless, safe, highly durable, and easy to clean solutions to meet the most demanding flooring challenges.
