Product Description

Colored Flakes Epoxy Resin Floor Coating High Gloss Grey Finishes

Quick Details Of Epoxy Resin Floor Coating:

When choosing an epoxy floor coating, you need to choose a color. If you want a classic appearance, white or grey epoxy resin is a good choice. You can find almost any color of epoxy resin to get more unique things. The final consideration is the glossiness you want. High gloss finishes are easy to clean, but are more prone to defects. Low gloss or matte finishes are more tolerant, but may require more frequent cleaning to maintain their appearance. After proper maintenance and upkeep, epoxy flake flooring can be used for many years. Colored flakes help conceal any slight scratches or wear, and diamond ground surfaces will maintain a good appearance in the coming years. Regular cleaning and mopping can help keep the floor clean, while occasional deep cleaning can help remove accumulated dirt.

Features Of Epoxy Resin Floor Coating:

1. Impenetrable to moisture
2. Highly hygienic, glossy finish
3. Odorless, non-flammable
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Tough, high gloss, water resistant

Advantages Of Epoxy Resin Floor Coating:

Epoxy Flake Coating is a highly-durable floor coating application that incorporates a double broadcast of colored flakes chips with epoxy resin and polyaspartic coatings. The system provides flooring solutions for the most demanding heavy-traffic environments, specifically in areas that require significant traction. The durable and stunning appearance that comes from this epoxy finish will endure for many years to come, with minimal or no maintenance other than regular cleaning using mild cleaning products. UV stable epoxy flake coating offers seamless, safe, highly durable, and easy to clean solutions to meet the most demanding flooring challenges.
