Product Description

Casting Clear Deep Pour Epoxy Resin For Wooden Bar Counter Table Tops

Quick Details Of Deep Pour Epoxy Resin:

Epoxy resin is commonly used to create vivid and bright artworks. Before adding any bright colors, you need to start with clear epoxy resin. The resins sold on the market sometimes have a light yellow color, which can darken the color you want to stand out. Our high-quality crystal transparent resin will make the colors you add shine. Crystal transparent resin is not only helpful for artistic creation. You can use epoxy resin to preserve and protect the surface of wood. For example, if you own a bar, you may want to protect the wooden bar counter with epoxy resin. It will add a professional and smooth finish to your bar, while also ensuring the safety of the wood surface.

Features Of Deep Pour Epoxy Resin:

1. Bubble-free finish, no streaking
2. Ideal for highly transparent casting
3. Excellent defoaming formula
4. Highest yellowing resistance
5. Self-leveling & high gloss
6. Ideal for all casting and art projects

Advantages Of Deep Pour Epoxy Resin:

Deep pour epoxy resin produces a tough, no VOCs, low odor, high gloss, water and scratch resistant coating. Our deep pour epoxy resin is strong, transparent and fully UV resistant hard as a rock ensuring your artwork and DIY projects durable. Use our clear epoxy resin for all of your casting and coating applications. It can be used on canvas, tile, watercolor, rocks, photos, artwork and bamboo etc. Such as earrings, coffee table, ashtray, crystal glass, vehicle surface seal, river table and whatever you want!
