

## UV Resistance Deep Pour Epoxy Resin Self Leveling High Heat Resistance

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: SGS, TDS, MSDS
- Model Number: CK-DP2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-7.5/Kg
- Packaging Details: Bottle/Carton/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

### Product Specification

- Category: Glass Cast Epoxy Resin
- Superior: Non Toxic And Non Solvent
- Key Words: Bubble Free, Crystal Clear
- Materials: Liquid Glass Epoxy Resin
- Mixing Ratio: 2:1 By Weight
- Application: Casting, Coating And Art
- Pot Life: 60 Minutes
- Shelf Life: 12 Months
- Highlight: **UV Resistance Deep Pour Epoxy Resin, Deep Pour Epoxy Resin Heat Resistance**

## Product Description

### UV Resistance Deep Pour Epoxy Resin Self-Leveling High Heat Resistance

#### Quick Details Of Deep Pour Epoxy Resin:

Unlike most epoxy resins currently sold in the market, we use A: B resin mixed in a 2:1 weight ratio. It is designed specifically for deeper casting. Very easy to use, the self-leveling function makes it easier to handle mixed epoxy resin when poured on the surface, and can achieve a smoother mirror effect. Each pouring can pour epoxy resin with a thickness of 2 inches, and a maximum of 4 inches can be poured. Fully cured products are very hard and have high heat resistance. The structure of our deep pour epoxy resin is very stable and will not easily bend or damage.

#### Features Of Deep Pour Epoxy Resin:

1. Thick pours (Up to 4" thick)
2. UV resistance with UV inhibitors
3. Excellent defoaming formula
4. Highest yellowing resistance
5. Self-leveling & high gloss
6. Ideal for all casting and art projects

#### Advantages Of Deep Pour Epoxy Resin:

Deep Pour epoxy is a two part, crystal clear deep casting resin that is design for projects that require pouring thickness exceeding 2 ". Its convenient formula requires a 2:1 ratio, which will result in stunning projects with glass like finishes. You can even pour multiple thick layers with a depth over 2 inches. Customize your crafts with vibrant colors, such as glitter, mica powder, liquid dye and more! Deep Pour epoxy resin is perfect for a variety of unique projects, from river tables, live edge tables, furniture making, flower encapsulations and embedding, service trays, and so much more!

#### Product Descriptions Of Deep Pour Epoxy Resin:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	400-600 mPa·s	300-500 mPa·s
Density, g/cm <sup>3</sup>	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D85-90	
Pot Life	50-60mins@25°C	
Curing Time	24-36hrs@25°C, 16-24hrs@35°C 48hrs, Dry Completely	
Max Pour Depth	10-20cm max per single pour	
Shelf Life	12 Months	
Application	Ideal for all Casting, Coating and Art Projects including Cutting Boards, Coasters, Countertops, Bartop, Resin Art, Resin Jewelry, Coating Artwork and Acrylic Pour Paintings, Geode Paintings, Molds, River Tables
