

Non Yellowing Deep Pour Epoxy Resin For Casting And Art Projects

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: SGS, TDS, MSDS
- Model Number: CK-DP2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-7.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Hashtag: Liquid Clear Resin
- Characterise: High-Gloss Waterproof Finish
- Key Words: Bubble Free, Crystal Clear
- Materials: Liquid Glass Epoxy Resin
- Mixing Ratio: 2:1 By Weight
- Application: Casting, Coating And Art
- Pot Life: 60 Minutes
- Shelf Life: 12 Months
- Highlight: **Non Yellowing Deep Pour Epoxy Resin, Deep Pour Epoxy Resin For Casting**

Product Description

Non Yellowing Deep Pour Epoxy Resin For Casting And Art Projects

Quick Details Of Deep Pour Epoxy Resin:

The formulation of this 2:1 mixing ratio deep pour epoxy resin is to reduce heat release (heat accumulation), allowing users to pour in thicker parts without delaying layering like standard epoxy resins. Pigments and colorants are the perfect accessories for epoxy resins, which can be thoroughly mixed after stirring to obtain brilliant colors. Most pigments and mica powder can play a significant role in a small amount. The more pigments added, the greater the impact on curing time. We suggest starting with a very small amount and adding more until the desired color is achieved.

Features Of Deep Pour Epoxy Resin:

1. Excellent color stability, non yellowing
2. Perfect surface flatness and strenght
3. Excellent defoaming formula
4. Highest yellowing resistance
5. Self-leveling & high gloss
6. Ideal for all casting and art projects

Advantages Of Deep Pour Epoxy Resin:

Deep Pour epoxy is a two part, crystal clear deep casting resin that is design for projects that require pouring thickness exceeding 2 ". Its convenient formula requires a 2:1 ratio, which will result in stunning projects with glass like finishes. You can even pour multiple thick layers with a depth over 2 inches. Customize your crafts with vibrant colors, such as glitter, mica powder, liquid dye and more! Deep Pour epoxy resin is perfect for a variety of unique projects, from river tables, live edge tables, furniture making, flower encapsulations and embedding, service trays, and so much more!

Product Descriptions Of Deep Pour Epoxy Resin:

| Item | Epoxy Resin(A) | Hardener(B) |
|----------------|---|---------------|
| Appearance | Liquid | Liquid |
| Color | Transparent | Transparent |
| Viscosity@25°C | 400-600 mPa·s | 300-500 mPa·s |
| Density, g/cm3 | 1.07±0.05 | 0.95±0.03 |
| Mix Ratio | 2:1 by weight | |
| Hardness | Shore, D85-90 | |
| Pot Life | 50-60mins@25°C | |
| Curing Time | 24-36hrs@25°C, 16-24hrs@35°C 48hrs, Dry Completely | |
| Max Pour Depth | 10-20cm max per single pour | |
| Shelf Life | 12 Months | |
| Application | Ideal for all Casting, Coating and Art Projects including Cutting Boards, Coasters, Countertops, Bartop, Resin Art, Resin Jewelry, Coating Artwork and Acrylic Pour Paintings, Geode Paintings, Molds, River Tables | |
