

River Tables Deep Pour Epoxy Resin 2/1 Thick Cast Resin And Hardener

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: SGS, TDS, MSDS
- Model Number: CK-DP2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-7.5/Kg
- Packaging Details: Bottle/Carton/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Labels: Clear Cast Resin
- Prime: Smooth, Glassy Surface
- Key Words: Bubble Free, Crystal Clear
- Materials: Liquid Glass Epoxy Resin
- Mixing Ratio: 2:1 By Weight
- Application: Casting, Coating And Art
- Pot Life: 60 Minutes
- Shelf Life: 12 Months
- Highlight: River Tables Deep Pour Epoxy Resin, Thick Cast Deep Pour Epoxy Resin

Product Description

River Tables Deep Pour Epoxy Resin 2:1 Thick Cast Resin And Hardener

Quick Details Of Deep Pour Epoxy Resin:

Deep pour resin, sometimes referred to as river tables epoxy resin, is usually a thinner material when mixed, allowing for thicker pouring. Each type of epoxy resin has different uses and should be specifically used for these purposes. Compared to coated epoxy resins, thick cast resins have many unique characteristics. The most noteworthy aspect is the mixing ratio. The pouring resin used for thick pouring is usually mixed in a ratio of 2:1 by weight. Usually, these are two parts of the base resin and one part of the hardener. On the other hand, coated epoxy resin is usually a mixture with a volume ratio of 1:1. Sometimes, thicker casting resins may appear in different proportions, such as 3:1, or include different types of catalysts, which may only require a few drops.

Features Of Deep Pour Epoxy Resin:

1. Superior air release qualities
2. Ultra crystal clear resin and hardener
3. Excellent defoaming formula
4. Highest yellowing resistance
5. Self-leveling & high gloss
6. Ideal for all casting and art projects

Advantages Of Deep Pour Epoxy Resin:

Deep Pour epoxy is a two part, crystal clear deep casting resin that is design for projects that require pouring thickness exceeding 2 ". Its convenient formula requires a 2:1 ratio, which will result in stunning projects with glass like finishes. You can even pour multiple thick layers with a depth over 2 inches. Customize your crafts with vibrant colors, such as glitter, mica powder, liquid dye and more! Deep Pour epoxy resin is perfect for a variety of unique projects, from river tables, live edge tables, furniture making, flower encapsulations and embedding, service trays, and so much more!

Product Descriptions Of Deep Pour Epoxy Resin:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	400-600 mPa.s	300-500 mPa.s
Density, g/cm3	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D85-90	
Pot Life	50-60mins@25°C	
Curing Time	24-36hrs@25°C, 16-24hrs@35°C 48hrs, Dry Completely	
Max Pour Depth	10-20cm max per single pour	
Shelf Life	12 Months	
Application	Ideal for all Casting, Coating and Art Projects including Cutting Boards, Coasters, Countertops, Bartop, Resin Art, Resin Jewelry, Coating Artwork and Acrylic Pour Paintings, Geode Paintings, Molds, River Tables
