

## Slow Curing Deep Pour Epoxy Resin For Large Scale Molding And Casting

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: SGS, TDS, MSDS
- Model Number: CK-DP2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-7.5/Kg
- Packaging Details: Bottle/Carton/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

### Product Specification

- Paint: Deep Pour Epoxy Liquid Glass
- Terrific: Resistant To Bacteria And Moisture
- Key Words: Bubble Free, Crystal Clear
- Materials: Liquid Glass Epoxy Resin
- Mixing Ratio: 2:1 By Weight
- Application: Casting, Coating And Art
- Pot Life: 60 Minutes
- Shelf Life: 12 Months
- Highlight: **Slow Curing Deep Pour Epoxy Resin, Large Casting Deep Pour Epoxy Resin**

## Product Description

### Slow Curing Deep Pour Epoxy Resin For Large Scale Molding And Casting

#### Quick Details Of Deep Pour Epoxy Resin:

For the deepest and clearest single-layer epoxy resin casting used for river tables, movable edge plates, and large-scale molding and casting applications, please choose a deep casting epoxy resin system with a simple 2:1 mixing ratio and a long working time of 1 hour to make it easy to use, especially for large or complex casting involving coloring and encapsulations. A slow curing time can allow you to pour deeper layers, which means less pouring. Up to 3 inches deep, easy to color, including mica powder, pigment paste dispersion, liquid epoxy pigment, and alcohol ink. Once solidified, it can be sanded and turned on a lathe. The solidified surface does not contain bisphenol A, making it safer for surfaces in contact with food.

#### Features Of Deep Pour Epoxy Resin:

1. Low exothermic heat buildup
2. Low VOC content, for user safety
3. Excellent defoaming formula
4. Highest yellowing resistance
5. Self-leveling & high gloss
6. Ideal for all casting and art projects

#### Advantages Of Deep Pour Epoxy Resin:

Deep Pour epoxy is a two part, crystal clear deep casting resin that is design for projects that require pouring thickness exceeding 2 ". Its convenient formula requires a 2:1 ratio, which will result in stunning projects with glass like finishes. You can even pour multiple thick layers with a depth over 2 inches. Customize your crafts with vibrant colors, such as glitter, mica powder, liquid dye and more! Deep Pour epoxy resin is perfect for a variety of unique projects, from river tables, live edge tables, furniture making, flower encapsulations and embedding, service trays, and so much more!

#### Product Descriptions Of Deep Pour Epoxy Resin:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	400-600 mPa·s	300-500 mPa·s
Density, g/cm3	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D85-90	
Pot Life	50-60mins@25°C	
Curing Time	24-36hrs@25°C, 16-24hrs@35°C 48hrs, Dry Completely	
Max Pour Depth	10-20cm max per single pour	
Shelf Life	12 Months	
Application	Ideal for all Casting, Coating and Art Projects including Cutting Boards, Coasters, Countertops, Bartop, Resin Art, Resin Jewelry, Coating Artwork and Acrylic Pour Paintings, Geode Paintings, Molds, River Tables
