Best Solution Metallic Epoxy Floor Coating For Garage Store Industrial Area

Quick Details Of Metallic Epoxy Floor Coating:

Our metallic epoxy resin flooring is the best solution for any garage, store, or industrial area. Our craftsmanship and the high-quality materials we use can change any surface to make it durable and stunning! With many flooring options, you will find that you need to reapply the finish time and time again to maintain the aesthetics of the floor. However, when metallic epoxy floor coating is applied, you won't have to touch your floor for many years. It's high durability and visual appealing. Start using fresh and beautiful epoxy garage flooring today!

Features Of Metallic Epoxy Floor Coating:

1. Creates a unique, elegant look
2. Chemical and abrasion resistance
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Slip-resistance and safety

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.
