Product Description

High Gloss Finishes Metallic Epoxy Floor Coating Maintenance And Barrier Free

Quick Details Of Metallic Epoxy Floor Coating:

Keeping the floor clean and span has never been so easy. Transparent epoxy resin flooring is a low maintenance and barrier free option. Whether you use a mop or a vacuum cleaner, you will love how easy it is to maintain a fresh and clean appearance. Our three-step system for implementing metallic epoxy flooring gives it a modern appearance similar to colored concrete. We also offer transparent concrete and polyurea flake flooring services. We provide the best coating solutions for garage floors and all other concrete surfaces in the industrial and residential sectors.

Features Of Metallic Epoxy Floor Coating:

1. Decorative marble appearance flooring
2. Matte, semi-gloss or high gloss finishes
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Great for bathrooms and wet areas

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.
