

Industrial Concrete Metallic Epoxy Floor Coating With Resin And Pigments

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Carton/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Kind: Copper Metallic Epoxy Garage Floor
- Extraordinary: Residential Metallic Epoxy Flooring
- Key Words: 100% Solids Epoxy Resin
- Materials: Epoxy Clear Coat
- Application: Wood, Ceramic Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: Industrial Metallic Epoxy Floor Coating, Pigments Metallic Epoxy Floor Coating, Resin Metallic Epoxy Floor Coating

Product Description

Industrial Concrete Metallic Epoxy Floor Coating With Resin And Pigments

Quick Details Of Metallic Epoxy Floor Coating:

Crafted from metallic pigments suspended within a clear epoxy coating, metallic epoxy resin introduces a captivating three-dimensional appearance to epoxy surfaces. Beyond the allure of creativity, these coatings embody the robustness and reliability akin to industrial concrete coatings. The boundless potential of metallic epoxy resin offers customers a diverse spectrum of color, design, and artistic opportunities while guaranteeing the enduring toughness typical of epoxy flooring.

The versatility of metallic epoxy resin extends its charm to indoor spaces, retail areas, garages, and countertops, offering a touch of creativity and style. To fortify and enhance its longevity, the top layer of metallic epoxy resin can be coated with protective urethane, polymer, or a single-component sealant. This additional layer ensures superior protection, wear resistance, durability, and strong adhesion, elevating the performance and longevity of the epoxy surface.

Features Of Metallic Epoxy Floor Coating:

1. Suitable for commercial application
2. Retail environments and residential
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.

Product Descriptions Of Metallic Epoxy Floor Coating:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	600-800 mPa·s	50-150 mPa·s
Density, g/cm ³	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	8-12hrs@35°C, 16-24hrs@25°C 24hrs, Dry Completely	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages, Warehouses, Airports and hangars. Commercial Use - Shopping malls and boutiques, Hotels, Offices, Showrooms, Restaurants, Hospitals, Schools, Bar Tops, Table Tops. Residential Use - Entrances and hallways, basements, entertainment rooms, bathrooms, kitchens and living rooms.
