

Residential Metallic Epoxy Floor Coating Decorative Concrete Flooring

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Class: Metallic Epoxy Flooring
- Topnotch: Lava Flow Granite Design
- Key Words: 100% Solids Epoxy Resin
- Materials: Epoxy Clear Coat
- Application: Wood, Ceramic Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: **Concrete Metallic Epoxy Floor Coating, Decorative Concrete Flooring**

Product Description

Residential Metallic Epoxy Floor Coating Decorative Concrete Flooring

Quick Details Of Metallic Epoxy Floor Coating:

If you want a durable flooring solution that is not only elegant but also unique, metallic epoxy flooring may be very suitable for you. These beautiful and eye-catching metallic coatings are one of the biggest trends in decorative concrete flooring. Industrial and residential epoxy resin flooring is usually divided into several layers. Based on the colors and additives in each layer, many effects can be produced. Some people prefer a matte or glossy color. Vinyl color chips can be added to create popular epoxy flake flooring, or mineral flakes can be added to mimic natural stone. Metallic epoxy flooring is made of metallic pigments, which are tiny flash pigments in epoxy resin that capture light.

Features Of Metallic Epoxy Floor Coating:

1. Durable and can withstand heavy traffic
2. Wide range of design options
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.

Product Descriptions Of Metallic Epoxy Floor Coating:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	600-800 mPa·s	50-150 mPa·s
Density, g/cm ³	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	8-12hrs@35°C, 16-24hrs@25°C 24hrs, Dry Completely	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages, Warehouses, Airports and hangars. Commercial Use - Shopping malls and boutiques, Hotels, Offices, Showrooms, Restaurants, Hospitals, Schools, Bar Tops, Table Tops.
