

## Polished Concrete Metallic Epoxy Floor Coating Seamless High-Gloss Finish

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

### Product Specification

- Model: Metallic Resin Floor
- Impressive: Basement Epoxy
- Key Words: 100% Solids Epoxy Resin
- Materials: Epoxy Clear Coat
- Application: Wood, Ceramic Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: **Seamless Metallic Epoxy Floor Coating, Polished Metallic Epoxy Floor Coating**

## Product Description

### Polished Concrete Metallic Epoxy Floor Coating Seamless High-Gloss Finish

#### Quick Details Of Metallic Epoxy Floor Coating:

Homeowners have many reasons to choose metallic coatings. This unique effect is a customized solution and also economical. The cost of metallic epoxy resin flooring can even be lower than many other flooring systems. This makes it an excellent substitute for ordinary and typical products without sacrificing quality and aesthetics. Metallic flooring can also create an interesting and exquisite living space or public space. The effect achieved by metallic pigments and epoxy resins cannot be replicated with other coating options. By reflecting light, metallic flooring provides greater depth and size than dyed and polished concrete.

#### Features Of Metallic Epoxy Floor Coating:

1. Seamless, high-gloss finish
2. Ideal for commercial and industrial settings
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

#### Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.

#### Product Descriptions Of Metallic Epoxy Floor Coating:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	600-800 mPa·s	50-150 mPa·s
Density, g/cm <sup>3</sup>	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	8-12hrs@35°C, 16-24hrs@25°C 24hrs, Dry Completely	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages, Warehouses, Airports and hangars. Commercial Use - Shopping malls and boutiques, Hotels, Offices, Showrooms, Restaurants, Hospitals, Schools, Bar Tops, Table Tops.
